

## Sharing Docs

The process to share is:

- Select the Patient
- Select the Document
- Choose the Forward Arrow
- Select External System or Mail
- Select Provider **\*\* THIS IS REQUIRED\*\***
- Type in Provider Name > and select. The system will populate.
- Then hit Share

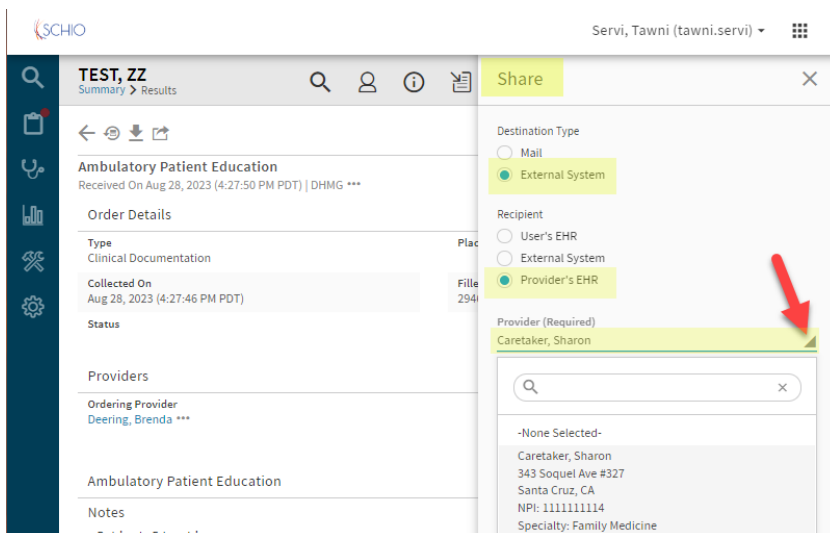

Open up a patient chart and click on a document to open it up.

- Once the report is open, users will see small icons on the top left corner. Select the far right icon of a paper with an arrow pointing to the right.

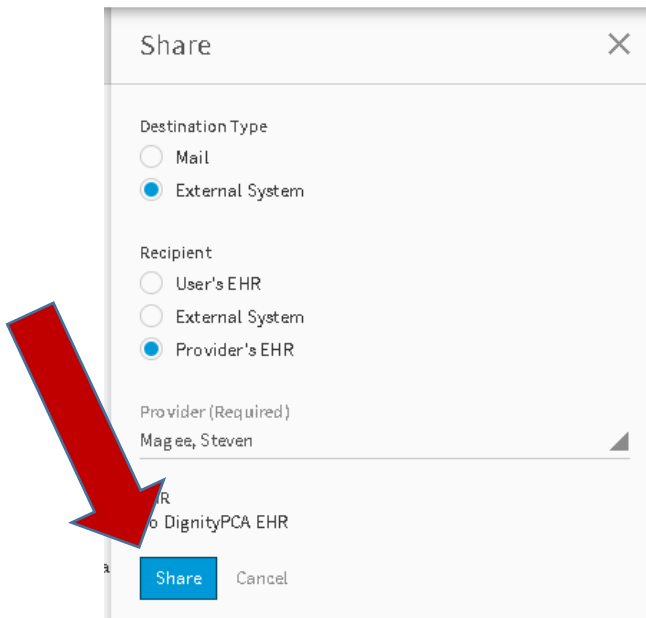

**The user must select a Provider EHR. EHRs will not deliver a message without the provider.**

- On Provider (Required) click the right triangle on the corner and search for the provider by name or 10-digit NPI number. Search NPI Records here - <https://npiregistry.cms.hhs.gov>

Next click Share.

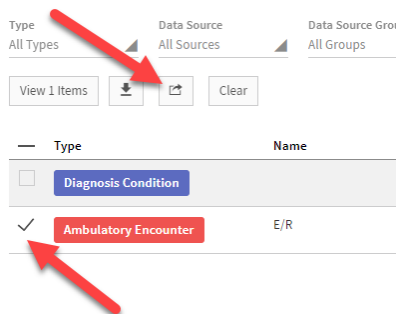

## Multiple document sharing

- Navigate to Actions -> Download/Share Clinical Items.

- Select the documents you'd like to share, then click the share icon.

- There are a few different options to share including directly into the clinicians's EHR or sending a Direct email message.

The image displays four sequential screenshots of a 'Share' dialog box, each illustrating a different sharing method. The dialog boxes are arranged horizontally and labeled with red numbers 1 through 4.

- Share 1:** Shows 'Destination Type' set to 'Mail' (selected) and 'Recipient' set to 'User' (selected). The 'User (Required)' field contains 'Servi, Tawni (tawni.servi)'. The 'Attachment' is set to 'PDF' and 'Data Level' is 'Summary'. The 'Include Patient Link' toggle is off.
- Share 2:** Shows 'Destination Type' set to 'Mail' (selected) and 'Recipient' set to 'Provider' (selected). The 'Provider (Required)' field contains 'Khademi, Ali'. The 'Attachment' is set to 'PDF' and 'Data Level' is 'Summary'. The 'Include Patient Link' toggle is off.
- Share 3:** Shows 'Destination Type' set to 'Mail' (selected) and 'Recipient' set to 'Direct Address' (selected). The 'Direct Address' field contains 'tawni.servi@direct.santacruzhi.e.org'. The 'Attachment' is set to 'PDF' and 'Data Level' is 'Summary'. The 'Include Patient Link' toggle is off.
- Share 4:** Shows 'Destination Type' set to 'External System' (selected) and 'Recipient' set to 'User's EHR' (selected). The 'User (Required)' field contains 'Weber, Robert (robert.weber)'. The 'Attachment' is set to 'PDF' and 'Data Level' is 'Summary'. The 'Include Patient Link' toggle is off.

\*Not all users have a Direct email or EHR setup in our system. Please contact our support team at (831) 610-3700 or [support@schio.org](mailto:support@schio.org) with any questions.
